The best TA ever! Kayden is extremely helpful -- always puts the students first by asking them what topics are difficult and if we, the students, want it to be discussed/explained further before moving onto the discussion papers. By doing so, the discussion paper is easier to do. Kayden is also very encouraging towards the class, which makes discussion meetings more exciting.

Kayden Mimmack began reviewing material gone over in lectures during discussions midway through the quarter. Not only does he clarify the material, but he stimulates discussion and is helpful when a student has trouble solving a problem.

Kayden was very helpful in understanding the difficult material.

He was very kind and helpful!

Kayden is such a great TA!! He is always super helpful and patient and will answer everyone's questions. I appreciate that he makes me feel that it's okay to be confused and get the help I need. He is always welcoming in office hours, discussion, and the calculus room. Overall he is just really nice, and amazing at explaining the concepts. In addition, he is really motivational and supportive.

TA was amazing, he went out of his way to reinforce many concepts that were touched upon in class.

I wish he worked on the worksheets with us, it would help a lot more.
