Please provide additional comments. These comments are a valuable part of your evaluation of the Teaching Assistant.

Kayden is a very good TA, he explains material very well and is very open to helping students, he is responsible for my great performance in this course.

Kayden Mimmack has great knowledge of the material and was my main source of help in this class during discussion.

Overall he was an amazing TA however he's handwriting was very tiny so it was hard to see what he wrote.

Kayden was extremely knowledgeable and helpful in discussion and office hours, he prepared extremely useful presentations of pertinent material during the discussions and we could all tell how much effort he put into lesson planning. His discussions were so helpful that my roommate attended kayden's discussion session with me instead of going to her own. We especially appreciated his demonstrations that included real life examples such as the matrix transformations, equilibrium, and volumes of solids of revolution.
