## Please provide additional comments. These comments are a valuable part of your evaluation of the Teaching Assistant.

Kayden is a good TA in the sense that he provides additional clarification during discussion. He shows a clear understanding of the subject, and also enjoys what he teaches. He is also helpful when 'walking through' a problem, as he prompts the students rather than gives them the answer without the understanding behind it. He is always open to discuss problems and subject matter, and he has been very helpful this quarter.

---

Very approachable, tries to help whenever my group has a question.

---

Really helpful and patient!

---

Good job Kayden. Thank you for giving us tips for each exam and for the class. You seem very interested in the class and your students.

---

The TA's clear explanations to the students' questions made the content more understandable. I liked that he walked around the room during the discussion to make sure that every student developed an understanding of the material. In addition, he was not reluctant to offer help even if this meant that he had to stay for extra time after the discussion has already concluded. I greatly appreciated his help. He showed his professionalism as he was able to show how some formulas were derived and the background behind them.

---

Very nice and explained things well. It is sometimes hard to get to talk to the TA in class, but that is just because everyone asks questions.

---

Kayden commands himself and the discussion class very nicely. Very knowledgeable about the subject at hand and never failed to have an answer and explanation to any of our questions from my experience.

---

Could be better trying to explain and work with the class as a whole.
